 - b. 11-30: [David Kinsey](#) Nothing pending.
 - c. 12-07: [David Kinsey](#) Nothing pending.
 - d. 12-14: Motion from Thoralf to approve the release with the condition that the three outstanding projects, which the PTL were not represented (RICAPP, SMO, DOC) would close their project activities by 12/21. Seconded by John-Paul. Motion was Approved
 - e. **12-21:** Release Review, Conditions were met so 12-14 vote is confirmed.
 5. O-RAN-related business (marketing, WG interaction, TSC/EC update etc.)
 - i. OSFG discussions [Jinri Huang](#)
 1. O-RAN SCCL enforcement:

- a. 11-02: Jakub: currently handled in WG10 tooling team; 2 main topics: SCCL itself, should be included in the code artifact, 2nd is the repository to make the file public; in progress, some brainstorming, nothing for OSC to use directly; WG10 to generate the requirements; take to other WG, OFFICE, or OCOP, working on the design part of the thing; more difficult than expected;
 - b. 11-09: Jakub Novy mentioned that SCCL was discussed at this week's OSFG meeting, Suggest to follow up at next week TOC. More decisions needed at O-RAN level.
 - c. 11-16: Jakub Novy There is a meeting with O-RAN legal next week to review any potential issues.
 - d. 11-30: David Kinsey A meeting took place with tooling within WG10. ACOP also needs to be consulted over the process. Jakub Novy to provide update on meeting with O-RAN legal.
 - e. 12-07: Jakub Novy Not much to report. Got some feedback from O-RAN legal on brainstorming phase of WG10; Also checking with ETSI, Doug is helping. David Kinsey currently pushing SCCL with WG3, WG10 and WG4. John Keeney is of interest of publishing R1 related files with SCCL from WG2. David Kinsey R1 related file may end up be an Open API.
2. Collaboration with OAI (lab interconnection) James Li user-59b16
 - a. Joint Workshop: <https://openairinterface.org/joint-osc-oai-workshop-end-to-end-open-source-reference-designs-for-o-ran/>
 - i. 11-02: the joint workshop, full and good agenda. Plus, OAI has good relationship with SRSRAN;
 - ii. 11-09: Irfan Ghauri reminder that workshop happens at Innovation Campus in Burlington not Boston Downtown. Approx 150 registered participants. Full agenda.
 1. 11-09 AP Irfan Ghauri to resend agenda to mailing list.
 - iii. 11-02: AP: Jinri Huang to reach O-RAN office to discuss the joint PR draft -
 1. 11-02: O-RAN and OAI will consider and work on a joint PR.
 2. 11-09: See AP review above.
 - a. Jinri Huang From Zbynek & Jindrich: O-RAN changing PR process so no new PRs this year.
 - i. Jinri Huang O-RAN can promote the PR if issued through OAI channel & Add links to it
 - b. Irfan Ghauri OAI can help here. Draft proposed. Ongoing & will revert with an update.
 - i. 11-09 AP Irfan Ghauri For OAI/OSC workshop: will revert with an update on PR content & channel
 - iv. 11-16: Irfan Ghauri The workshop was generally very well attended. NTIA and NSF attended to give government perspective on O-RAN. Good to get the opportunity to address government agencies directly. Demos were very well received. Presented the next phases of collaboration between OSC and OAI e.g. Nephio and OSC collaboration for SMO and relationship to OAI. Meeting next week with Radisys to discuss potential integration of OAI CU with OSC. Next steps are to try to operationalise the OSC collaboration roadmap with, for example, Nephio. Recordings of workshop, poster sessions and demo sessions to be made available online shortly. Need to have a plan / roadmap for OSC features through 2024 similar to the OAI roadmap.
 - v. 11-16: Tracy Van Brakle There is an opportunity for teams to present demo proposals at the upcoming North America O-RAN plugfest readout on Nov 29th. Tracy will post further information to the public mailing list.
 - vi. 11-30: Tracy Van Brakle Readout meeting took place for North American O-RAN plugfest. Some outstanding demonstrations were presented. Demonstrators and participants from industry and university faculty students. Mini-PR to be discussed to mark this event. Funding is starting to come from O-RAN Alliance and government agencies (in US and beyond). Martin Skorupski it was good to see things moving in alignment between the O-RAN Alliance and open source.
 - vii. 11-30: David Kinsey will prepare PR regarding the Boston meeting of OSC and OAI. Irfan Ghauri has shared the summary of meeting with OAI steering meeting. Interesting to learn that Nephio has input into the SMO (FOCOM).
 - viii. 11-30: Irfan Ghauri Next steps are to present a joint roadmap. Should be presented to and reviewed by the OSC TOC. David Kinsey there is a challenge for OSC to do better with creating a multi-release feature roadmap.
 - ix. 11-30: Irfan Ghauri follow-up discussions are already taking place for the traffic network functions. For example, Radisys are working on the O-DU integration with OAI. The workshop really helped to kickstart this collaboration between OSC and OAI. David Kinsey Do we continue to use the OSC O-DU (Low) or do we start to look towards OAI for this function? Ankit Barve has taken an action point at RSAC to investigate a mix n match approach with OSC and OAI for O-DU. Should have a clearer picture on this over the coming weeks.
 - x. 12-07: Irfan Ghauri The document that I prepared basically was co-signed by Ganesh and I'd like permission from Ganesh to be able to present. David Kinsey we'll put it on for next week.
 - xi. 12-07: David Kinsey has a draft for the joint workshop PR but needs get approval from AT&T. Still a pending question about O-DU-low, needs a decision with the roadmap to whether to keep the O-DU-low project. Need to send those questions to Lewis from Intel.
 - xii. 12-14: We walked through the OAI O-CU + OSC O-DU-High + OAI O-DU-Low presentation by Gane sh Shenbagaraman and Irfan Ghauri to be found in the Toc Documents folder
 3. OSFG - OSC/OAI integration in furtherance of Super Wireless RAN blueprint Tracy Van Brakle.
 - a. 11-09: Tracy Van Brakle: Draft of First version - aiming for Release 0 at end of year.
 - i. Link for those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>
 - b. 11-30: Tracy Van Brakle Meeting planned for December 14th to review the roadmap with O-RAN Alliance TSC co-chairs. OSFG meeting Monday 4th will review (5am PT).
 - c. 11-30: Tracy Van Brakle Need blueprint status, technical issues and roadmap as input to the TSC co-chair meeting.
 - d. 11-30: Jinri Huang Plans to approach Jindrich Brett in O-RAN Alliance to confirm process for voting on a vendor co-chair for OSFG
 - e. 12-07: Tracy Van Brakle The roadmap of the blueprint is in the form of a white paper and it's a drafty draft on OSFG contribution page. David Kinsey where's O-Cloud in this phase 1 (early iteration)? Nephio is just an enabler. We need O-Cloud to interconnect our labs. Tracy Van Brakle For the road map, introduce O-Cloud

as a starting point, 4th quarter 2023; and then Cloudify O-Cloud, 2nd quarter 2024 (deployment by the SMO using O2 interface). [David Kinsey](#) when should we be targeting a demonstration with an OAI network function, using an OSC SMO to deploy it with Nephio enablers? 3 roadmaps (OSC, OAI, Nephio) have to be aligned. Saw demo at the workshop that use SMO + Near RT RIC + xApp on A1 to make policy change for DU bandwidth. So something is there but needs to be more generalized. Bala from Red Hat indicates that Nephio is creating their user stories and priorities for the R3 release (starting early 2024 towards the middle of 2024), and O2 IMS is one of them. [Tracy Van Brakle](#) Doug and I will see where srsRAN might fit in, and when if they do. srsRAN expressed their interest to participate.

4. Other

- a. 11-09: Mix up with times for this week's OSFG meeting. Calendar has now been updated to 7AM EST ([Jinri Huang](#)).
- b. 12-07: [David Kinsey](#) need to work out the scribe. [Jinri Huang](#) will do 12/7, and [David Kinsey](#) can do 12/14. May need one for 12/21. [Julien Boudani](#) can do January 2024, starting from 1/4.

6. Standing/old business

a. OSC Lab

- i. 11-09: [Tracy Van Brakle](#) Looking forward to discussions in Boston of having OSC labs working for upcoming plugfest, but also for experimentation & demos
 1. See also links from OSFG last week. For those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>
- ii. 11-30: [David Kinsey](#) Bedminster lab remains down. Considering consolidation into a different AT&T lab, in a different location (still NJ), which is more aligned with OSC work. Access processes should be similar to current access process. **AP** on [David Kinsey](#) and [Tracy Van Brakle](#) to review and revert.
- iii. 11-30: [David Kinsey](#) proposals for lab contract to be reviewed within AT&T. Work is ongoing and progress is being made. Next two weeks are critical in order to get funding from O-RAN Alliance and finalise lab plans.

b. Release Planning: Weekly TOC Scheduling [Sridhar Rao](#)

- i. 11-02: Mapping b/w OSC project work and WG spec. work discussed. There is a table for this mapping for H release. See here: [H Release](#) (The table at the end of the page). Good example from INF project with a detailed excel file to record the detailed mapping. [Jinri](#) encourage the PTL to make such efforts, or at least fill in the table. Some echos on this suggestion. Some comments are that the work is beyond trial and time-consuming. sometime difficult since some spec. may not have stage-3 defined. Another suggestion is to use the conformance spec. [Jinri](#) responded that the value of the work is significant. Yet admitted community is contribution-driven. Yet still strongly encourage the team to do this.
- ii. 11-02: **AP: [Jinri](#)** to work with Jackie to refine the table template.
 1. 11-09: See AP review above.
 - a. [Jinri Huang](#): This table is for mapping template between project & specs. No update this week. Will continue
- iii. 11-09: [Sridhar Rao](#) License Scanning will be complete with report by 10 Dec. See checklist on wikipedia: [Release Checklist#I-Release](#)
- iv. 11-09: **AP: [Sridhar Rao](#)** will report back next week on progress/status of release process & checklist
- v. 11-16: [Sridhar](#) has reviewed the status of release I documentation. Many documents still outstanding. **AP: All PTLs** to update release I checklist and ensure a plan to finalise release docs.
- vi. 11-30: [Sridhar Rao](#) is not seeing updates on wiki release pages. Based on current lack of progress, it may be difficult to meet release deadlines for December. PTLs and teams need more urgency in updating release I pages / wiki, highlights, release checklist and other release-relevant documentation. Once all documentation is ready, the only thing required is a TOC release vote.
- vii. 11-30: [David Kinsey](#) Release I date is provisionally targeting 25th - 29th December. This may be challenging for some. Need to agree a date for the release vote to take place. [Thoralf Czichy](#) suggests the 14th December (keeping 21st December as a backup) for the Release I vote. [David Kinsey](#) made motion to release on 14th December, [Thoralf Czichy](#) seconded. Motion approved.
- viii. 12-07: [Sridhar Rao](#) From the I release checklist page, only 5 projects NONRTRIC, RICPLT, ODUHIGH*, INF, AIMLFW completed the committed features. Need all PTLs to work and complete by next Thursday for release vote. For the "Release documentation for Blog/Article on Release" item will have a dedicated marketing person to update the wiki and generate a PR for I release. [Ankit Barve](#) how about "Features Implemented Mapping to O-RAN Spec by Project" table for I release? [David Kinsey](#) It might be kept at the project level for each PTL to fill in the details of the O-RAN specs impacting features. [Ankit Barve](#) Propose to add as a last section to the project.

c. Project reports (by features) (Note: From Aug. 3, it is decided that Project reports in groups will be strike out, and it will be done by features)

- E2E call - pairwise testing, [Jian Li](#) , Nov. 2
- Lab updates, [Jian Li](#) , Nov. 2
 - 11-02: [Presentation here](#)
- Disaggregated SMO Flows - [N.K. Shankaranarayanan](#) , Nov. 9
 - 11-09: [N.K. Shankaranarayanan](#) Provided a update on Opensource projects in SMO space & mapping to 'Decoupled SMO Architecture'
 - Presentation: https://wiki.o-ran-sc.org/download/attachments/78217260/dec_smo_flows_v1.4_20231109.pptx?api=v2
 - [Jinri Huang](#) Suggestion to add dates to slides as they change.
- Onboarding and Orchestration - [Seshu Kumar Mudiganti](#) , Nov. 9
 - 11-09: No update this week.
 - Come back to this next week, Nov 16
 - **AP:** Project/Feature Update from [Seshu Kumar Mudiganti](#) on Nov 16
- RIC Platform Enhancements - [Thoralf Czichy](#) , Nov. 16
 - **AP:** Project/Feature Update from [Thoralf Czichy](#) on Nov 16 (report not ready) Nov 23: [link](#)
 - 11-30: [Thoralf Czichy](#) significant number of items which were planned for Release I will be delayed to Release J. However, they are being worked on so confidence is high that they will be delivered in Release J timeframe. Some bug fixes in Release I, others moved to Release J. Work continues to enable Release I. Detailed RIC Platform project report is available [here](#).
- Energy Savings - [Alex Stancu](#), Nov. 16
 - **AP:** Project/Feature Update from [Alex Stancu](#) on Nov 16

- 11-16: Team data set in Nexus - publicly available to read. AI/ML team looking into model training. Energy savings data set being reviewed by NTUST. Release I will deliver the enablers and E2E demo will be available in release J.

 - e. **12-07:** [Tracy Van Brakle](#) The roadmap of the blueprint is in the form of a white paper and it's a drafty draft on OSFG contribution page. [David Kinsey](#) where's O-Cloud in this phase 1 (early iteration)? Nephio is just an enabler. We need O-Cloud to interconnect our labs. [Tracy Van Brakle](#) For the road map, introduce O-Cloud as a starting point, 4th quarter 2023; and then Cloudify O-Cloud, 2nd quarter 2024 (deployment by the SMO using O2 interface). [David Kinsey](#) when should we be targeting a demonstration with an OAI network function, using an OSC SMO to deploy it with Nephio enablers? 3 roadmaps (OSC, OAI, Nephio) have to be aligned. Saw demo at the workshop that use SMO + Near RT RIC + xApp on A1 to make policy change for DU bandwidth. So something is there but needs to be more generalized. Bala from Red Hat indicates that Nephio is creating their user stories and priorities for the R3 release (starting early 2024 towards the middle of 2024), and O2 IMS is one of them. [Tracy Van Brakle](#) Doug and I will see where srsRAN might fit in, and when if they do. srsRAN expressed their interest to participate.

 - a. OSC Lab
 - i. 11-09: [Tracy Van Brakle](#) Looking forward to discussions in Boston of having OSC labs working for upcoming plugfest, but also for experimentation & demos
 - 1. See also links from OSFG last week. For those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>
 - ii. **11-30:** [David Kinsey](#) Bedminster lab remains down. Considering consolidation into a different AT&T lab, in a different location (still NJ), which is more aligned with OSC work. Access processes should be similar to current access process. **AP** on [David Kinsey](#) and [Tracy Van Brakle](#) to review and revert.
 - iii. **11-30:** [David Kinsey](#) proposals for lab contract to be reviewed within AT&T. Work is ongoing and progress is being made. Next two weeks are critical in order to get funding from O-RAN Alliance and finalise lab plans.
 - b. Release Planning: Weekly TOC Scheduling [Sridhar Rao](#)
 - i. 11-02: Mapping b/w OSC project work and WG spec. work discussed. There is a table for this mapping for H release. See here: [H Release](#) (The table at the end of the page). Good example from INF project with a detailed excel file to record the detailed mapping. Jinri encourage the PTL to make such efforts, or at least fill in the table. Some echos on this suggestion. Some comments are that the work is beyond trial and time-consuming. sometime difficult since some spec. may not have stage-3 defined. Another suggestion is to use the conformance spec. Jinri responded that the value of the work is significant. Yet admitted community is contribution-driven. Yet still strongly encourage the team to do this.
 - ii. 11-02: **AP:** [Jinri](#) to work with Jackie to refine the table template.
 - 1. 11-09: See AP review above.
 - a. [Jinri Huang](#): This table is for mapping template between project & specs. No update this week. Will continue
 - iii. 11-09: [Sridhar Rao](#) License Scanning will be complete with report by 10 Dec. See checklist on wikipedia: [Release Checklist#I-Release](#)
 - iv. 11-09: **AP:** [Sridhar Rao](#) will report back next week on progress/status of release process & checklist
 - v. 11-16: [Sridhar](#) has reviewed the status of release I documentation. Many documents still outstanding. **AP:** All PTLs to update release I checklist and ensure a plan to finalise release docs.
 - vi. **11-30:** [Sridhar Rao](#) is not seeing updates on wiki release pages. Based on current lack of progress, it may be difficult to meet release deadlines for December. PTLs and teams need more urgency in updating release I pages / wiki, highlights, release checklist and other release-relevant documentation. Once all documentation is ready, the only thing required is a TOC release vote.
 - vii. **11-30:** [David Kinsey](#) Release I date is provisionally targeting 25th - 29th December. This may be challenging for some. Need to agree a date for the release vote to take place. [Thoralf Czichy](#) suggests the 14th December (keeping 21st December as a backup) for the Release I vote. [David Kinsey](#) made motion to release on 14th December, [Thoralf Czichy](#) seconded. Motion approved.
 - viii. **12-07:** [Sridhar Rao](#) From the I release checklist page, only 5 projects NONRTRIC, RICPLT, ODUHIGH*, INF, AIMLFW completed the committed features. Need all PTLs to work and complete by next Thursday for release vote. For the "Release documentation for Blog/Article on Release" item will have a dedicated marketing person to update the wiki and generate a PR for I release. [Ankit Barve](#) how about "Features Implemented Mapping to O-RAN Spec by Project" table for I release? [David Kinsey](#) It might be kept at the project level for each PTL to fill in the details of the O-RAN specs impacting features. [Ankit Barve](#) Propose to add as a last section to the project.

1. Review and Agree to Minutes of Previous Meeting
 - a. **Decision:** Minutes approval for last TOC meeting 2023-11-30 (maintain only the items for current month): Motion proposed by [John Keeney](#) seconded by [Avinash Bhat](#), motion approved unanimously.
2. Review of Today's Agenda
 - a. Walk Ons? No new items added
3. New Agenda Items (New Business): New Items Submitted (+speaker) & Open Call to TOC For Additional Items
 - a. **12-07:** No New Items this week
 - b. **12-07:** OAI Roadmap 12-14
4. Release Votes ([checklist](#)) and Approval
 - a. AP Review
 - i. 11-02: The f2f meeting recording was put on the wiki. See here: [2023-10 O-RAN F2F Phoenix](#)
 - ii. 11-09: **Review AP:** 11-02: AP: [Jinri Huang](#) to reach O-RAN office to discuss the joint PR draft
 1. [Jinri Huang](#) From Zbynek & Jindrich: O-RAN changing PR process so no new PRs this year.
 - a. [Jinri Huang](#) O-RAN can promote the PR if issued through OAI channel & Add links to it
 2. [Irfan Ghauri](#) OAI can help here. Draft proposed. Ongoing & will revert with an update.
 - a. 11-09 **AP Irfan Ghauri** For OAI/OSC workshop: will revert with an update on PR content & channel
 - iii. 11-09: **Review AP:** 11-02: AP: Jinri to work with Jackie to refine the table template.
 1. [Jinri Huang](#) No update this week. Will continue
 - b. 11-30: [David Kinsey](#) Nothing pending.
 - c. 12-07: [David Kinsey](#) Nothing pending.
5. O-RAN-related business (marketing, WG interaction, TSC/EC update etc.)
 - i. OSFG discussions [Jinri Huang](#)
 1. O-RAN SCCL enforcement:
 - a. 11-02: [Jakub](#): currently handled in WG10 tooling team; 2 main topics: SCCL itself, should be included in the code artifact, 2nd is the repository to make the file public; in progress, some brainstorming, nothing for OSC to use directly; WG10 to generate the requirements; take to other WG, OFFICE, or OCOP, working on the design part of the thing; more difficult than expected;
 - b. 11-09: [Jakub Novy](#) mentioned that SCCL was discussed at this week's OSFG meeting, Suggest to follow up at next week TOC. More decisions needed at O-RAN level.
 - c. 11-16: [Jakub Novy](#) There is a meeting with O-RAN legal next week to review any potential issues.
 - d. **11-30:** [David Kinsey](#) A meeting took place with tooling within WG10. ACOP also needs to be consulted over the process. [Jakub Novy](#) to provide update on meeting with O-RAN legal.
 - e. **12-07:** [Jakub Novy](#) Not much to report. Got some feedback from O-RAN legal on brainstorming phase of WG10; Also checking with ETSI, Doug is helping. [David Kinsey](#) currently pushing SCCL with WG3, WG10 and WG4. [John Keeney](#) is of interest of publishing R1 related files with SCCL from WG2. [David Kinsey](#) R1 related file may end up be an Open API.
 2. Collaboration with OAI (lab interconnection) [James Li](#) user-59b16
 - a. Joint Workshop: <https://openairinterface.org/joint-osc-oai-workshop-end-to-end-open-source-reference-designs-for-o-ran/>
 - i. 11-02: the joint workshop, full and good agenda. Plus, OAI has good relationship with SRSRAN;
 - ii. 11-09: [Irfan Ghauri](#) reminder that workshop happens at Innovation Campus in Burlington not Boston Downtown. Approx 150 registered participants. Full agenda.
 1. 11-09 **AP Irfan Ghauri** to resend agenda to mailing list.
 - iii. 11-02: **AP: Jinri Huang** to reach O-RAN office to discuss the joint PR draft -
 1. 11-02: O-RAN and OAI will consider and work on a joint PR.
 2. 11-09: See AP review above.
 - a. [Jinri Huang](#) From Zbynek & Jindrich: O-RAN changing PR process so no new PRs this year.
 - i. [Jinri Huang](#) O-RAN can promote the PR if issued through OAI channel & Add links to it
 - b. [Irfan Ghauri](#) OAI can help here. Draft proposed. Ongoing & will revert with an update.
 - i. 11-09 **AP Irfan Ghauri** For OAI/OSC workshop: will revert with an update on PR content & channel
 - iv. 11-16: [Irfan Ghauri](#) The workshop was generally very well attended. NTIA and NSF attended to give government perspective on O-RAN. Good to get the opportunity to address government agencies directly. Demos were very well received. Presented the next phases of collaboration between OSC and OAI e.g. Nephio and OSC collaboration for SMO and relationship to OAI. Meeting next week with Radisys to discuss potential integration of OAI CU with OSC. Next steps are to try to operationalise the OSC collaboration roadmap with, for example, Nephio. Recordings of workshop, poster sessions and demo sessions to be made available online shortly. Need to have a plan / roadmap for OSC features through 2024 similar to the OAI roadmap.
 - v. 11-16: [Tracy Van Brakle](#) There is an opportunity for teams to present demo proposals at the upcoming North America O-RAN plugfest readout on Nov 29th. Tracy will post further information to the public mailing list.
 - vi. **11-30:** [Tracy Van Brakle](#) Readout meeting took place for North American O-RAN plugfest. Some outstanding demonstrations were presented. Demonstrators and participants from industry an university faculty students. Mini-PR to be discussed to mark this event. Funding is starting to come

from O-RAN Alliance and government agencies (in US and beyond). [Martin Skorupski](#) it was good to see things moving in alignment between the O-RAN Alliance and open source.

- vii. **11-30:** [David Kinsey](#) will prepare PR regarding the Boston meeting of OSC and OAI. [Irfan Ghauri](#) has shared the summary of meeting with OAI steering meeting. Interesting to learn that Nephio has input into the SMO (FOCOM).
- viii. **11-30:** [Irfan Ghauri](#) Next steps are to present a joint roadmap. Should be presented to and reviewed by the OSC TOC. [David Kinsey](#) there is a challenge for OSC to do better with creating a multi-release feature roadmap.
- ix. **11-30:** [Irfan Ghauri](#) follow-up discussions are already taking place for the traffic network functions. For example, Radisys are working on the O-DU integration with OAI. The workshop really helped to kickstart this collaboration between OSC and OAI. [David Kinsey](#) Do we continue to use the OSC O-DU (Low) or do we start to look towards OAI for this function? [Ankit Barve](#) has taken an action point at RSAC to investigate a mix n match approach with OSC and OAI for O-DU. Should have a clearer picture on this over the coming weeks.
- x. **12-07:** [Irfan Ghauri](#) The document that I prepared basically was co-signed by Ganesh and I'd like permission from Ganesh to be able to present. [David Kinsey](#) we'll put it on for next week.
- xi. **12-07:** [David Kinsey](#) has a draft for the joint workshop PR but needs get approval from AT&T. Still a pending question about O-DU-low, needs a decision with the roadmap to whether to keep the O-DU-low project. Need to send those questions to Lewis from Intel.

3. OSFG - OSC/OAI integration in furtherance of Super Wireless RAN blueprint [Tracy Van Brakle](#).

- a. 11-09: [Tracy Van Brakle](#): Draft of First version - aiming for Release 0 at end of year.
 - i. Link for those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>
- b. **11-30:** [Tracy Van Brakle](#) Meeting planned for December 14th to review the roadmap with O-RAN Alliance TSC co-chairs. OSFG meeting Monday 4th will review (5am PT).
- c. **11-30:** [Tracy Van Brakle](#) Need blueprint status, technical issues and roadmap as input to the TSC co-chair meeting.
- d. **11-30:** [Jinri Huang](#) Plans to approach Jindrich Brett in O-RAN Alliance to confirm process for voting on a vendor co-chair for OSFG
- e. **12-07:** [Tracy Van Brakle](#) The roadmap of the blueprint is in the form of a white paper and it's a drafty draft on OSFG contribution page. [David Kinsey](#) where's O-Cloud in this phase 1 (early iteration)? Nephio is just an enabler. We need O-Cloud to interconnect our labs. 1. Review and Agree to Minutes of Previous Meeting
 - a. **Decision:** Minutes approval for last TOC meeting 2023-11-16 (maintain only the items for current month): Motion proposed by [John Paul Lane](#) seconded by [Jinri Huang](#), motion approved unanimously.
2. Review of Today's Agenda
 - a. No new items added
3. New Agenda Items (New Business): New Items Submitted (+speaker) & Open Call to TOC For Additional Items
 - a. **11-30** Call for scribe for December. CMCC will scribe for first meeting.
4. Release Votes ([checklist](#)) and Approval
 - a. AP Review
 - i. 11-02: The f2f meeting recording was put on the wiki. See here: [2023-10 O-RAN F2F Phoenix](#)
 - ii. 11-09: **Review AP:** 11-02: AP: [Jinri Huang](#) to reach O-RAN office to discuss the joint PR draft
 1. [Jinri Huang](#) From Zbynek & Jindrich: O-RAN changing PR process so no new PRs this year.
 - a. [Jinri Huang](#) O-RAN can promote the PR if issued through OAI channel & Add links to it
 2. [Irfan Ghauri](#) OAI can help here. Draft proposed. Ongoing & will revert with an update.
 - a. 11-09 **AP Irfan Ghauri** For OAI/OSC workshop: will revert with an update on PR content & channel
 - iii. 11-09: **Review AP:** 11-02: AP: [Jinri](#) to work with Jackie to refine the table template.
 1. [Jinri Huang](#) No update this week. Will continue
 - b. 11-30: [David Kinsey](#) Nothing pending.
5. O-RAN-related business (marketing, WG interaction, TSC/EC update etc.)
 - i. OSFG discussions [Jinri Huang](#)
 1. O-RAN SCCL enforcement:
 - a. 11-02: [Jakub](#): currently handled in WG10 tooling team; 2 main topics: SCCL itself, should be included in the code artifact, 2nd is the repository to make the file public; in progress, some brainstorming, nothing for OSC to use directly; WG10 to generate the requirements; take to other WG, OFFICE, or OCOP, working on the design part of the thing; more difficult than expected;
 - b. 11-09: [Jakub Novy](#) mentioned that SCCL was discussed at this week's OSFG meeting, Suggest to follow up at next week TOC. More decisions needed at O-RAN level.
 - c. 11-16: [Jakub Novy](#) There is a meeting with O-RAN legal next week to review any potential issues.
 - d. **11-30:** [David Kinsey](#) A meeting took place with tooling within WG10. ACOP also needs to be consulted over the process. [Jakub Novy](#) to provide update on meeting with O-RAN legal.
 2. Collaboration with OAI (lab interconnection) [James Li user-59b16](#)
 - a. Joint Workshop: <https://openairinterface.org/joint-osc-oai-workshop-end-to-end-open-source-reference-designs-for-o-ran/>
 - i. 11-02: the joint workshop, full and good agenda. Plus, OAI has good relationship with SRSRAN;
 - ii. 11-09: [Irfan Ghauri](#) reminder that workshop happens at Innovation Campus in Burlington not Boston Downtown. Approx 150 registered participants. Full agenda.
 1. 11-09 **AP Irfan Ghauri** to resend agenda to mailing list.
 - iii. 11-02: **AP: Jinri Huang** to reach O-RAN office to discuss the joint PR draft -
 1. 11-02: O-RAN and OAI will consider and work on a joint PR.
 2. 11-09: See AP review above.
 - a. [Jinri Huang](#) From Zbynek & Jindrich: O-RAN changing PR process so no new PRs this year.
 - i. [Jinri Huang](#) O-RAN can promote the PR if issued through OAI channel & Add links to it
 - b. [Irfan Ghauri](#) OAI can help here. Draft proposed. Ongoing & will revert with an update.
 - i. 11-09 **AP Irfan Ghauri** For OAI/OSC workshop: will revert with an update on PR content & channel
 - iv. 11-16: [Irfan Ghauri](#) The workshop was generally very well attended. NTIA and NSF attended to give government perspective on O-RAN. Good to get the opportunity to address government agencies directly. Demos were very well received. Presented the next phases of collaboration between OSC and OAI e.g. Nephio and OSC collaboration for SMO and relationship to OAI. Meeting next week

with Radisys to discuss potential integration of OAI CU with OSC. Next steps are to try to operationalise the OSC collaboration roadmap with, for example, Nephio. Recordings of workshop, poster sessions and demo sessions to be made available online shortly. Need to have a plan / roadmap for OSC features through 2024 similar to the OAI roadmap.

- v. 11-16: **Tracy Van Brakle** There is an opportunity for teams to present demo proposals at the upcoming North America O-RAN plugfest readout on Nov 29th. Tracy will post further information to the public mailing list.
- vi. 11-30: **Tracy Van Brakle** Readout meeting took place for North American O-RAN plugfest. Some outstanding demonstrations were presented. Demonstrators and participants from industry and university faculty students. Mini-PR to be discussed to mark this event. Funding is starting to come from O-RAN Alliance and government agencies (in US and beyond). **Martin Skorupski** it was good to see things moving in alignment between the O-RAN Alliance and open source.
- vii. 11-30: **David Kinsey** will prepare PR regarding the Boston meeting of OSC and OAI. **Irfan Ghauri** has shared the summary of meeting with OAI steering meeting. Interesting to learn that Nephio has input into the SMO (FOCOM).
- viii. 11-30: **Irfan Ghauri** Next steps are to present a joint roadmap. Should be presented to and reviewed by the OSC TOC. **David Kinsey** there is a challenge for OSC to do better with creating a multi-release feature roadmap.
- ix. 11-30: **Irfan Ghauri** follow-up discussions are already taking place for the traffic network functions. For example, Radisys are working on the O-DU integration with OAI. The workshop really helped to kickstart this collaboration between OSC and OAI. **David Kinsey** Do we continue to use the OSC O-DU (Low) or do we start to look towards OAI for this function? **Ankit Barve** has taken an action point at RSAC to investigate a mix n match approach with OSC and OAI for O-DU. Should have a clearer picture on this over the coming weeks.

3. OSFG - OSC/OAI integration in furtherance of Super Wireless RAN blueprint **Tracy Van Brakle**.

- a. 11-09: **Tracy Van Brakle**: Draft of First version - aiming for Release 0 at end of year.
 - i. Link for those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>
- b. 11-30: **Tracy Van Brakle** Meeting planned for December 14th to review the roadmap with O-RAN Alliance TSC co-chairs. OSFG meeting Monday 4th will review (5am PT).
- c. 11-30: **Tracy Van Brakle** Need blueprint status, technical issues and roadmap as input to the TSC co-chair meeting.
- d. 11-30: **Jinri Huang** Plans to approach Jindrich Brett in O-RAN Alliance to confirm process for voting on a vendor co-chair for OSFG

4. Other

- a. 11-09: Mix up with times for this week's OSFG meeting. Calendar has now been updated to 7AM EST (**Jinri Huang**).

6. Standing/old business

a. OSC Lab

- i. 11-09: **Tracy Van Brakle** Looking forward to discussions in Boston of having OSC labs working for upcoming plugfest, but also for experimentation & demos
 - 1. See also links from OSFG last week. For those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>
- ii. 11-30: **David Kinsey** Bedminster lab remains down. Considering consolidation into a different AT&T lab, in a different location (still NJ), which is more aligned with OSC work. Access processes should be similar to current access process. **AP** on **David Kinsey** and **Tracy Van Brakle** to review and revert.
- iii. 11-30: **David Kinsey** proposals for lab contract to be reviewed within AT&T. Work is ongoing and progress is being made. Next two weeks are critical in order to get funding from O-RAN Alliance and finalise lab plans.

b. Release Planning: Weekly TOC Scheduling **Sridhar Rao**

- i. 11-02: Mapping b/w OSC project work and WG spec. work discussed. There is a table for this mapping for H release. See here: **H Release** (The table at the end of the page). Good example from INF project with a detailed excel file to record the detailed mapping. Jinri encourage the PTL to make such efforts, or at least fill in the table. Some echos on this suggestion. Some comments are that the work is beyond trial and time-consuming. sometime difficult since some spec. may not have stage-3 defined. Another suggestion is to use the conformance spec. Jinri responded that the value of the work is significant. Yet admitted community is contribution-driven. Yet still strongly encourage the team to do this.
- ii. 11-02: **AP: Jinri** to work with Jackie to refine the table template.
 - 1. 11-09: See AP review above.
 - a. **Jinri Huang**: This table is for mapping template between project & specs. No update this week. Will continue
- iii. 11-09: **Sridhar Rao** License Scanning will be complete with report by 10 Dec. See checklist on wikipedia: **Release Checklist#1-Release**
- iv. 11-09: **AP: Sridhar Rao** will report back next week on progress/status of release process & checklist
- v. 11-16: Sridhar has reviewed the status of release I documentation. Many documents still outstanding. **AP: All PTLs** to update release I checklist and ensure a plan to finalise release docs.
- vi. 11-30: **Sridhar Rao** is not seeing updates on wiki release pages. Based on current lack of progress, it may be difficult to meet release deadlines for December. PTLs and teams need more urgency in updating release I pages / wiki, highlights, release checklist and other release-relevant documentation. Once all documentation is ready, the only thing required is a TOC release vote.
- vii. 11-30: **David Kinsey** Release I date is provisionally targeting 25th - 29th December. This may be challenging for some. Need to agree a date for the release vote to take place. **Thoralf Czichy** suggests the 14th December (keeping 21st December as a backup) for the Release I vote. **David Kinsey** made motion to release on 14th December, **Thoralf Czichy** seconded. Motion approved.

c. Project reports (by features) (Note: From Aug. 3, it is decided that Project reports in groups will be strike out, and it will be done by features)

- E2E call - pairwise testing, **Jian Li** , Nov. 2
- Lab updates, **Jian Li** , Nov. 2
 - 11-02: **Presentation here**

 - [Jinri Huang](#) Suggestion to add dates to slides as they change.
 - Onboarding and Orchestration - [Seshu Kumar Mudiganti](#) , Nov. 9
 - 11-09: No update this week.
 - Come back to this next week, Nov 16
 - AP:** Project/Feature Update from [Seshu Kumar Mudiganti](#) on Nov 16
 - RIC Platform Enhancements - [Thoralf Czichy](#) , Nov. 16
 - AP:** Project/Feature Update from [Thoralf Czichy](#) on Nov 16 (report not ready) Nov 23: [link](#)
 - 11-30:** [Thoralf Czichy](#) significant number of items which were planned for Release I will be delayed to Release J. However, they are being worked on so confidence is high that they will be delivered in Release J timeframe. Some bug fixes in Release I, others moved to Release J. Work continues to enable Release I. Detailed RIC Platform project report is available [here](#).
 - Energy Savings - [Alex Stancu](#), Nov. 16
 - AP:** Project/Feature Update from [Alex Stancu](#) on Nov 16
 - 11-16: Team data set in Nexus - publicly available to read. AI/ML team looking into model training. Energy savings data set being reviewed by NTUST. Release I will deliver the enablers and E2E demo will be available in release J.

1. Review and Agree to Minutes of Previous Meeting
 - a. **Decision:** Minutes approval for last TOC meeting (maintain only the items for current month): Motion proposed by John Paul Lane seconded by Jakub Nový, motion approved unanimously.
2. Review of Today's Agenda
 - a. No new items added
3. New Agenda Items (New Business): New Items Submitted (+speaker) & Open Call to TOC For Additional Items
 - a. 11-02: Federico introduced himself. Together with him are two of his colleagues, Chris and Bala. They expressed the contributing interest from Redhat to OSC. A big and warm welcome from the team. Thrilled to see the new contribution source. Federico further indicated that they are both in Nephio and OSC. Plus, some of his colleagues will be attending the joint OSC-OAI workshop in Nov. Plus, the initial interest of area in OSC from Redhat would be on the infrastructure project.
 - b. 11-02: Agreement: Proposal suggested by Jinri to remove the notes (strike out) from previous months when starting the notes for a new month. Otherwise the message would be too clumsy and repetitive. Team agree
4. Release Votes (checklist) and Approval
 - a. AP Review

 - a. **11-09 AP Irfan Ghauri** For OAI/OSC workshop: will revert with an update on PR content & channel
 - iii. **11-09: Review AP:** 11-02: AP: Jinri to work with Jackie to refine the table template.
 1. Jinri Huang No update this week. Will continue
5. O-RAN-related business (marketing, WG interaction, TSC/EC update etc.)
 - i. OSFG discussions Jinri Huang
 1. O-RAN SCCL enforcement:
 - a. 11-02: Jakub: currently handled in WG10 tooling team; 2 main topics: SCCL itself, should be included in the code artifact, 2nd is the repository to make the file public; in progress, some brainstorming, nothing for OSC to use directly; WG10 to generate the requirements; take to other WG, OFFICE, or OCOP, working on the design part of the thing; more difficult than expected;
 - b. 11-09: Jakub Nový mentioned that SCCL was discussed at this week's OSFG meeting. Suggest to follow up at next week TOC. More decisions needed at O-RAN level.
 - c. 11-16: Jakub Nový There is a meeting with O-RAN legal next week to review any potential issues.
 2. Collaboration with OAI (lab interconnection) James Li user-59b16
 - a. Joint Workshop: <https://openairinterface.org/joint-osc-oai-workshop-end-to-end-open-source-reference-designs-for-o-ran/>
 - i. 11-02: the joint workshop, full and good agenda. Plus, OAI has good relationship with SRSRAN;
 - ii. 11-09: Irfan Ghauri reminder that workshop happens at Innovation Campus in Burlington not Boston Downtown. Approx 150 registered participants. Full agenda.
 1. **11-09 AP Irfan Ghauri** to resend agenda to mailing list.
 - iii. **11-02: AP: Jinri Huang** to reach O-RAN office to discuss the joint PR draft -
 1. 11-02: O-RAN and OAI will consider and work on a joint PR.
 2. 11-09: See AP review above.
 - a. Jinri Huang From Zbynek & Jindrich: O-RAN changing PR process so no new PRs this year.
 - i. Jinri Huang O-RAN can promote the PR if issued through OAI channel & Add links to it
 - b. Irfan Ghauri OAI can help here. Draft proposed. Ongoing & will revert with an update.
 - i. **11-09 AP Irfan Ghauri** For OAI/OSC workshop: will revert with an update on PR content & channel
 - iv. 11-16: Irfan Ghauri The workshop was generally very well attended. NTIA and NSF attended to give government perspective on O-RAN. Good to get the opportunity to address government agencies

directly. Demos were very well received. Presented the next phases of collaboration between OSC and OAI e.g. Nephio and OSC collaboration for SMO and relationship to OAI. Meeting next week with Radisys to discuss potential integration of OAI CU with OSC. Next steps are to try to operationalise the OSC collaboration roadmap with, for example, Nephio. Recordings of workshop, poster sessions and demo sessions to be made available online shortly. Need to have a plan / roadmap for OSC features through 2024 similar to the OAI roadmap.

- v. 11-16: **Tracy Van Brakle** There is an opportunity for teams to present demo proposals at the upcoming North America O-RAN plugfest readout on Nov 29th. Tracy will post further information to the public mailing list. N

3. OSFG - OSC/OAI integration in furtherance of Super Wireless RAN blueprint **Tracy Van Brakle**.

- a. 11-09: **Tracy Van Brakle**: Draft of First version - aiming for Release 0 at end of year.

4. Other

- a. 11-09: Mix up with times for this week's OSFG meeting. Calendar has now been updated to 7AM EST (**Jinri Huang**).

6. Standing/old business

a. OSC Lab

- i. 11-09: **Tracy Van Brakle** Looking forward to discussions in Boston of having OSC labs working for upcoming plugfest, but also for experimentation & demos

- 1. See also links from OSFG last week. For those who can access O-RAN Wiki: <https://oranalliance.atlassian.net/wiki/spaces/OSFG/pages/3020881939/2023-11-06+OSFG+Agenda>

b. Release Planning: Weekly TOC Scheduling **Sridhar Rao**

- i. 11-02: Mapping b/w OSC project work and WG spec. work discussed. There is a table for this mapping for H release. See here: [H Release](#) (The table at the end of the page). Good example from INF project with a detailed excel file to record the detailed mapping. Jinri encourage the PTL to make such efforts, or at least fill in the table. Some echos on this suggestion. Some comments are that the work is beyond trial and time-consuming. sometime difficult since some spec. may not have stage-3 defined. Another suggestion is to use the conformance spec. Jinri responded that the value of the work is significant. Yet admitted community is contribution-driven. Yet still strongly encourage the team to do this.

- ii. 11-02: **AP: Jinri** to work with Jackie to refine the table template.

- 1. 11-09: See AP review above.

- a. **Jinri Huang**: This table is for mapping template between project & specs. No update this week. Will continue

- iii. 11-09: **Sridhar Rao** License Scanning will be complete with report by 10 Dec. See checklist on wikipedia: [Release Checklist#I-Release](#)

- iv. 11-09: **AP: Sridhar Rao** will report back next week on progress/status of release process & checklist

- v. 11-16: Sridhar has reviewed the status of release I documentation. Many documents still outstanding. **AP: All PTLs** to update release I checklist and ensure a plan to finalise release docs.

c. Project reports (by features) (Note: From Aug. 3, it is decided that Project reports in groups will be strike out, and it will be done by features)

 - ii. [John Keeney](#) requested to get a clarification on the MoU. [Irfan Ghauri](#) mentioned that it is very generic and is between O-RAN Alliance & OAI, doesn't cover any licensing details.
 - iii. [John Keeney](#) requested clarification on licensing terms. [Irfan Ghauri](#) clarified that each community will follow their respective community guidelines.
 - f. 2023-10-12: [Irfan Ghauri](#) Agenda for November Joint OSC-OAI Workshop is finalizing. Some final touch are being applied.
 - g. **2023-10-26:** [Irfan Ghauri](#) and [Seshu Kumar Mudiganti](#) discussed November Joint OSC-OAI Workshop in Boston and noted an IMS orchestration topic that has momentum with both groups. One final speaking slot remains unfilled.
 3. OSFG - OSC/OAI integration in furtherance of Super Wireless RAN blueprint [Tracy Van Brakle](#)
 1. [Link to O-RAN OSFG meeting minutes 7/21](#)
 2. Work three things in parallel:
 - a. demonstrations within university labs (multiple regions) - concurrent with O-RAN Fall 2023 PoC/Plugfest (readout week of November 26)
 - i. AsiaPac - Taiwan and other locations
 - ii. EU
 - iii. North America
 - b. sources of funding to assure sustain-ability
 - i. O-RAN nGRG - application due August __, 2023
 - ii. Public Sector - NSF? NTIA?
 - c. Whitepaper (2023-09-14: It was clarified to be a whitepaper)
 3. **2023-10-26:** Blueprint still a work in progress and should have more information next week. A number of potential blueprints exist.
 - b. O-RAN next phase - prepare for upcoming F2F in Phoenix AZ, USA, October 17 to 19
 - i. 2023-08-03: Next F2F registration is now opened. [Rittwik Jana](#) mentioned ONF reached out for the energy saving topics. [Martin Skorupski](#) put it on the agenda of OSFG meeting to talk about energy savings and the collaboration with ONF.
 - ii. 2023-08-17: Discussed about Demos, the type of env screens needed. [David Kinsey](#) [Irfan Ghauri](#)
 - iii. 2023-09-07: [David Kinsey](#) made a call for sessions and requested members to update them directly in the event page. Refer [Link](#) for updates. AIML, SMO de-compositions within O-Cloud & Energy Saving sessions were discussed and added to the list. Proposal is to have 6 slots. [David Kinsey](#) proposed to cancel the ToC Call during the event week.
 - iv. 2023-09-14: [David Kinsey](#) mentioned that we should have at least 5 sessions for the planned items (Refer [Link](#)). The schedule is yet to be finalized. Details to be updated so that event can be planned better.
 - v. 2023-09-21: [David Kinsey](#) reminded everyone to take care of hotel accommodations in advance as it is sold out.
 - vi. 2023-09-28: [David Kinsey](#) clarified that we have received 5 session (against the 7 requested) . [Jinri Huang](#) to invite all the O-RAN Alliance WGs for the sessions. [David Kinsey](#) will organize the schedule and update the F2F Event Page.

- vii. 2023-10-05: Registration is open and the agenda is being finalized and is still possible for more speakers to attend and space for demos, esp. interested in O-Cloud.
- viii. 2023-10-12: Some agenda items still in motion. Moving Wednesday Session with MVP-C to Monday. Need to re-take slot which was released. Need time slot since some MVP AI/ML members will be remote in China. Demo slots still open. Will release session if no more demos identified.
- ix. **2023-10-26: David Kinsey** to post recordings of the various meetings. Had a discussion about the role of the various workgroups and their role defining interface and interface files. The AI/ML SMO Energy Saving use-case is aligned well with the OSC work with 4 modes of saving (Cell, channel mgmt, event sleep and cloud entity savings) but in the November Train the groups are still debating the granularity of control over the E2 interface to the DU. You may have fine-grain visibility but different level of controls.

4. Others

- a. **2023-10-26: David Kinsey** noted potential synergy between OSC and srsRAN Open Source RAN project as broad goals and projects may align. srsRAN may look to be ORAN compliant and interested to participate in plugfests.

6. Standing/old business

a. OSC Lab

- i. 2023-08-17: Our Bedminster Lab is in the process of move **David Kinsey**
- ii. 2023-09-21: No update on the move this week.
- iii. 2023-10-05: Equipment is rack-and-stacked but not networked. **David Kinsey** Will have an update at the face-face meeting. Looking for an O-Cloud option.
- iv. 2023-10-12: Supply Chain shortage, missing circuit breaker doesn't allow everything to be turned on. Missing chillers also means not too many things can be turned on due to temperature limits. No date when issue will be resolved.
- v. **2023-10-26** Same status with Supply Chain shortage and now may impact the I-Release, if there is no lab to test. Quotes for lab tooling are re-issued with the goal for end of year purchases.

b. Release Planning: Weekly TOC Scheduling **Sridhar Rao**

- i. 2023-08-03: **Rittwik Jana** Focus on energy savings; Figure out a plan of execution to get the metrics; ML modeling; SMO discussion.
- ii. 2023-08-31: **Seshu Kumar Mudiganti David Kinsey** Stretch to get the O-Cloud energy savings using policies into the I or J release. **Jackie Huang** need to check if it's doable.
- iii. 2023-09-07: **David Kinsey** made a call to PTL to update the I Release plan. PTLs to complete this before the F2F Meeting. **Rittwik Jana** provided updates on the data set.
- iv. 2023-09-14: **Rittwik Jana** updated that there are 2 datasets Alex is working on one dataset and Viavi is working on the other. **Rittwik** to follow up with Ultan (Viavi)
- v. 2023-09-21: **Rittwik Jana** confirmed on behalf of **Ultan Kelly** about the new dataset availability. (The old dataset cannot be make available). Next step would be to discuss with **Joseph Thaliath**
- vi. 2023-09-28 **Rittwik Jana** provided an offline update:
 - the TIM data set that would allow training of the AI/ML models is ready (it needed parsing). I will upload it to Nexus3 once we figure out how (LF is working on making Nexus3 host datasets - Sridhar will update once it is ready). Then, the AI/ML team will be able to play with that dataset.
 - Other dataset (synthetic) still to be produced by Viavi - maybe Rittwik has more information here
 - Discussions ongoing about the PM streaming (flow details [here](#)). Once we finalize the discussions there, implementation can start in the SIM and OAM projects.
 - 2023-10-05: Nexus 3 Repo setup <https://nexus3.o-ran-sc.org/repositories/datasets> and once permissions are set **Sridhar Rao** to upload TIM data sets. Viavi data-sets still a WIP.

- vii. 2023-10-05: No update but **David Kinsey** noted a three-week cycle for project updates and next one will after the face-face meeting.

c. Project reports (by features)

- i. 2023-08-03: Project reports in groups will be strike out, and it will be done by features, which will need to be restructured.
- ii. 2023-08-17: Features grouped as in **RSAC**.
- iii. Project Reports

- RIC Platform Enhancements - **Thoralf Czichy** - Next 28 Sep 2023: [link-to-2023-09-28-report](#)

- Energy Savings - **Alex Stancu** - Next 28 Sep 2023

- **Alex Stancu** Could not be available. Provided the following status update:
 - To summarize what has happened:

- the TIM data set that would allow training of the AI/ML models is ready (it needed parsing). I will upload it to Nexus3 once we figure out how (LF is working on making Nexus3 host datasets - Sridhar will update once it is ready). Then, the AI/ML team will be able to play with that dataset.

- Disaggregated SMO Flows - **N.K. Shankaranarayanan** - 21 Sep 2023

- 2023-09-21: Shankar is unavailable, to be planned in 3 weeks.
- 2023-10-05: To be discussed next week

- 2023-10-12: Shankar presented draft of F2F material. **David Kinsey** noted that the material should be posted and available in advance for F2F. Updates can still occur after initial upload.

- Onboarding and Orchestration - **Seshu Kumar Mudiganti** - 21 Sep 2023

- 2023-09-21: Seshu was unavailable
- 2023-10-05: To be discussed next week

2. Any Other Business (AoB)

- a. 2023-08-03: NTT DOCOMO voting member changed: Masafumi Masuda Masahiro Fujii; Anil Umesh Minami Ishii

- b. 2023-08-03: Action: to create I release page. **David Kinsey** mentioned DOC project not listed in **H release**, and we need to do **Release Checklist**

- c. 2023-08-31: Done created page for **I Release**.

- d. 2023-08-31: [David Kinsey](#) will not be available end of October. [Jinri Huang](#) to take care in the absence of David.

 - To summarize what has happened:
 - the TIM data set that would allow training of the AI/ML models is ready (it needed parsing). I will upload it to Nexus3 once we figure out how (LF is working on making Nexus3 host datasets - Sridhar will update once it is ready). Then, the AI/ML team will be able to play with that dataset.
 - Other dataset (synthetic) still to be produced by Viavi - maybe Rittwik has more information here
 - Discussions ongoing about the PM streaming (flow details [here](#)). Once we finalize the discussions there, implementation can start in the SIM and OAM projects.
