Notes:

Housekeeping:

- Next Week: 23 Apr 2024 [Martin Skorupski](#) is not available. [John Keeney](#) will start the meeting.
- Two Weeks: 30 Apr 2024 **Cancelled**. LFN DTF & ONE summit. See below.
- Daylight savings switchover in progress. Sorry if there is confusion. Please follow the online calendar!
- **Calendar:**
 - <https://lists.o-ran-sc.org/g/main/calendar>
 - <https://lists.onap.org/g/onap-meetings/calendar>
 - See section at top about Daylight Saving Time updates!
- *OSC SMO project calls now move to its own time slot - alternate Thursdays*
 - See OSC RSAC Calendar: <https://wiki.o-ran-sc.org/display/RSAC/calendars>
 - See also OSC Meetings calendar: <https://lists.o-ran-sc.org/g/main/calendar>
 - (Note this meeting to open to anyone, including non-ORAN members)
 - We will maintain this slot for ONAP Alignment, and try flag issues/question to/from SMO meetings.
 - See [OSC SMO Project meeting notes](#)
- See also [OSC AIML Project meeting notes](#)
- **Short meeting this week**

OSC Project roundup:

News from OSC TOC & OSFG calls last week

- **TOC:** [https://wiki.o-ran-sc.org/display/TOC#ORANSTechnicalOversightCommittee\(TOC\)](https://wiki.o-ran-sc.org/display/TOC#ORANSTechnicalOversightCommittee(TOC))
 - Last week's TOC (Thursday):
 - [subhash kumar singh](#) is the new AIMLFW PTL - Welcome! 😊
 - Thanks to [Joseph Thaliath](#) for all the great collaboration previously
 - Workshop planned to co-locate with ONE summit 29 Apr '24 (afternoon)
 - Agenda etc: <https://docs.google.com/spreadsheets/d/1KZbyU7MRR66kV9pMrrxHCA4CxcwKOKTSjtOna5jSdl/edit?usp=sharing>
 - <https://lfnetworking.org/event/one-summit-2024/>
 - <https://events.linuxfoundation.org/one-summit-north-america/>
 - <https://events.linuxfoundation.org/one-summit-north-america/program/schedule/>
 - Some discussion on CVE reports for OSC code
 - LF team will come back with info on some scanning that can be enabled.
 - ... but that doesn't fix the issue
 - Should there be CVEs for OSC code at all?
 - Suggesting that there should be some way to flag which functions are intended for actual deployments / commercially, which would then be eligible for CVE reports?
 - Some of the previously raised CVEs could not be found with automated scanning.
 - If CVEs reports are created, then who has responsibility to fix them - is there a requirement or expectation to fix them?

- No other major update
- This week's TOC (in 2 days):
 - Hope to raise CVE topic again.
- OSFG:
 - Not much to report from OSFG this week.

NONRTRIC (John Keeney)

- [OSC NONRTRIC: Release J](#)
- Preparing for OSC meeting/workshop at ONE summit, and at LFN DTF at the end of Apr.
- Continuing tasks as mentioned previous weeks.
 - Continue work our new Service Manager function
 - Still working on deployment, tests & integration
 - Docker: `o-ran-sc/nonrtrc-plt-servicemanager https://nexus3.o-ran-sc.org/#browse/browse:docker.staging:v2%2Fo-ran-sc%2Fnonrtrc-plt-servicemanager%2Ftags%2F0.1.0`
 - JIRA: [NONRTRIC-944](#) - Getting issue details... STATUS
 - Service manager is now ready to demo again. Hopefully next week.
 - Starting to improve Documentation & Deployment.
 - Lots still to do!
 - Continue work on rApp Manager - as a focal point for tying together alot of other existing activities
 - Working on some sample rApps. e.g. See [Release J: Simple rApp using Hello World Microservice](#)
 - Aim to have an updated version in coming weeks
 - Switching over to new Service Manager is ongoing
 - Working on SME & DME integration & improvements
 - Continue maturing the A1-Policy Controller function (ref ONAP) - including a potential new NBI (v3) to achieve R1 alignment
 - Current API will be maintained but deprecated for several releases to come.
 - Making slow but steady progress.
 - New API development ongoing. May be some questions for R1-A1-P spec in March train ... TBC
 - Trying to consolidate deployment charts and scripts - currently have multiple versions, with some inconsistencies/differences. Will be ongoing for some time.
 - Still need to get working on a proper A1-Policy Integration test with OSC near-RT-RIC (A1 Mediator)
 - Will need to de-prioritise many of the older less-used NONRTRIC functions - we welcome others in the community to help take these on if interested.
 - Need to study how/if we can achieve R1-DME alignment. Specs continue to diverge from our implementation - with alot of effort need to align. We welcome contributors to help here.

SIM (Alex Stancu)

- Continuing work to refresh simulator's base platform for O1
- Latest spec for OFHM requires TLS certificates - working on this.
 - would still like to support ssh - for simulator deployments
- Added support for Netconf notification when certificate is going to expire (good for OFHM)
 - But not sure if there is an equivalent VES message or similar for O1.
- Preparing for OSC meeting/workshop at ONE summit at the end of Apr.

OAM (Martin Skorupski)

- Working with Taiwan lab for deploying OAM functions
 - e.g. ODL/SDNC GUI auth is more difficult with OAuth ... considering still supporting simple Auth
 - e.g. When specific yang models are exposed it is possible to stop the entire channel ... working on this.

OSC Integration / INT (James Li)

- Working with RICAPP project to come up with a demo/presentation at OSC meeting/workshop at ONE summit at the end of Apr.
- Documentation of OSC/Powder collaboration ongoing - almost complete?

SMO (Seshu Kumar Mudiganti)

- No update this week.
- Meeting notes [Meeting notes](#)

RSAC (David Kinsey Rittwik Jana)

- No update this week
- Minutes: [RSAC Meetings](#)

AI/ML platform project (subhash kumar singh)

- Minutes & Meeting: [Meeting notes](#)
- Calendar: <https://lists.o-ran-sc.org/g/main/calendar>
- No update this week
- [subhash kumar singh](#) is the new PTL 😊
 - Will present more next week 👍

ONAP Update (N.K. Shankaranarayanan)

- No update this week

ONAP/OSC Usecases (N.K. Shankaranarayanan)

- No update this week.

Disaggregated SMO Flows (N.K. Shankaranarayanan)

- No update this week

Questions / Comments / AOB:

- Quick meeting this week!

Meeting ends 15 min
