

# 2020-04-02 Bronze D3

The near RT RIC Platform and RICAPP Demos:

- Python framework for xApp writers + QP-driver xApp that uses this framework.
- RAN initiated E2 Setup
- App stats metrics revamped page showing how metrics visualization machinery got upgraded to let users manage the Kibana pointing metrics urls through the UI rather than through code/configuration.
- xApp onboarding
- Video recording:
  - Part 1: [it-ricdemo-20200402-part12.mp4](#)
  - Part 2: [it-ricdemo-20200402-part22.mp4](#)
