A1 Mediator

The A1 Mediator listens on the northbound interface of the RIC for policy guidance. The caller (e.g., non RT RIC, SMO, etc.) creates policy *types* and *policy instances* through A1, and subsequently A1 exchanges messages with xApps via RMR.

Please see here for the docs: https://docs.o-ran-sc.org/projects/o-ran-sc-ric-plt-a1/en/latest/index.html

This wiki page may be useful for discussion about the A1 Mediator, feel free to post comments here.
