

2020-06-16 meeting agenda and minutes

Cherry Release EPICs refresh:

- AIO Duplex
- AIO Duplex with additional worker nodes
- Interoperability include the ODULOW, ODUHIGH and OCU
- **ARM Simplex (stretch goal)**

Integration Lab:

- No update yet (Intel team is working on the hardware issue)

For Cherry Release:

- The bi-weekly meeting will move 1 hour early

Build process improvement:

ceph building (officially requires 50G disk space):

Jackie environment: 2.2GHz CPU (O-RAN Jenkins 2.5GHz CPU, 2 cores + 8 G mem)

- 4 cores + 8 G mem OK
- 2 cores + 8 G mem OK
- 2 cores + 4 G mem OK

Bin environment: 2.4GHz CPU

- 8 cores + 16G mem Error

Should not be the resource limitation cause the ceph building error.

Todo: Try the build the ceph by using single thread.
