

VES Events and Topics on Message Router

- [VES events json bodies](#)
- [Topics on Message Router](#)

VES events json bodies

Please see bash scripts and json-templates for sending VES messages:

<https://gerrit.o-ran-sc.org/r/gitweb?p=oam.git;a=blob;f=solution/dev/ves-test-collector/client-scripts-ves-v7>

Topics on Message Router

For D-Release there is an interest in the following topics:

- fault - **unauthenticated.SEC_FAULT_OUTPUT**
- pnfRegistration - **unauthenticated.VES_PNFREG_OUTPUT**
- pm-measurement – **unauthenticated.SEC_MEASUREMENT_OUTPUT**

Please see related configuration file: <https://gerrit.onap.org/r/gitweb?p=dcaegen2/collectors/ves.git;a=blob;f=etc/DmaapConfig.json;h=2ef77dcd09c6be7c8fda8ffec0dc6929bc3bf87e;hb=refs/heads/master>

Please inform us when others topics should be supported, We would like to start the integration testing for VES event of the required topics.
