- Notes:
 - Housekeeping:
 - OSC Project roundup:
 - NONRTRIC (John Keeney)
 - SIM (Alex Stancu)
 - OAM (Martin Skorupski)
 - ONAP-OSC & QA:

Recording

- Recording (cloud)
- Recording (low-res mp4)

Notes:

Housekeeping:

- **Reminder from previous weeks:**
 - OSC SMO calls now move to its own time slot - Thursdays
 - See OSC RSAC Calendar: <https://wiki.o-ran-sc.org/display/RSAC/calendars>
 - (Note this meeting to open to anyone, including non-ORAN members)
 - We will maintain this slot for ONAP Alignment, and try flag issues/question to/from SMO meetings.
 - See [OSC SMO Project meeting notes](#)

OSC Project roundup:

NONRTRIC (John Keeney)

- Working on app / test script for O-RU-FrontHaul recovery (called LinkMonitor)
 - Can easily implement as an ONAP policy
 - Has all adapter needed for DMaaP & RESTCONF
 - Needs to add the ONAP PF to Helm charts
 - Will help when later considering exposing SMO services to rApps (especially if policy becomes an R1 service)
 - May also implement as a simple script - which can be separately onboarded
 - May be able to wrap in a helm chart & use this to drive requirements for a Helm-Chart onboarder/LCM function (will be helpful for rApps later - hopefully)
 - Use case is not real-world - but we can/will use it drive requirements
- Working hard to increase test coverage & tidy up NONRTRIC control panel.

SIM (Alex Stancu)

- Docker images available in Nexus for RU and DU simulation - based on the very simple models for the use cases
 - RU
 - Call home & netconf notification to SMO via SDNC for alarms etc
 - Using Nov 2020 train OpenFrontHaul model for netconf/CM
 - DU
 - Does pnfRegistration over VES
 - Uses the ""Hello World / O-DU" yang model for the use case.
- Fixed Documentation Error (Thanks to [Sonia Sangari](#))

OAM (Martin Skorupski)

- VES Collector version rolled back to v1.8. (Version 1.9.0 seems to have disappeared & 1.9.1 is not working)
 - Correctly uses Nov Train VES models
- OSC SMO
 - Now proposing to use SDNC/CCSDK/SDNR function for Netconf client.
 - Unclear which VES collector
- Fixed Documentation Error (Thanks to [Sonia Sangari](#))
- Helping Dan Timoney / SDNC sorting an issue with ODL in ONAP H release blocker.
- ODL version Silicon SR0 now working in CCSK ... will likely bump up to SR3(?) for ONAP Istanbul

ONAP-OSC & QA:

[user-4594e](#) Had planned to talk about ONAP CPS this week - Postpone to next week.
