## Notes:

### Housekeeping:

- **Reminder from previous weeks:**
  - OSC SMO calls now move to its own time slot - Thursdays
  - See OSC RSAC Calendar: <https://wiki.o-ran-sc.org/display/RSAC/calendars>
  - (Note this meeting to open to anyone, including non-ORAN members)
  - We will maintain this slot for ONAP Alignment, and try flag issues/question to/from SMO meetings.
  - See [OSC SMO Project meeting notes](#)

### OSC Project roundup:

#### NONRTRIC (John Keeney)

- OSC D Release done - Just pulling together demo video etc.
- E-release planning/prototyping etc kicking off now.
- Will be working with OSC RSAC committee for E release plans.

#### SIM (Alex Stancu)

- No update

#### OAM (Martin Skorupski)

- No update

#### O-DU (HariomGupta(HCL))

- Vidhu Shekhar Pandey D release all working fine in OSC lab. Some videos/demos for O-DU-high on the way!
- HariomGupta(HCL) In Chat: "Recorded the O-DU high demo video .. I would like to thanks Alex for quickly resolving the OAM mounting issue."

### News from OSC TOC call this week

- Discussed today making OSC helm charts available in OSC nexus. Will make it easier to reuse OSC components.
  - John Keeney Will work with Trishan de Lanerolle and LF RelEng team to figure out what needs doing. Think similar work is happening in ONAP too, so shouldn't be too hard to replicate in OSC (hopefully 😊)
- Need to push on with E Release Planning
- Hoping for progress on INT PTL.
- OSC D release: PR & general fanfare is a bit delayed. More in coming weeks.

### ONAP SMO deployment options (Christophe Closset (AT&T) & Amar Kapadia (AARNA))

- Last week's meeting minutes & recording: <https://wiki.onap.org/display/Meetings/2021-07-09+Meeting+notes> Meeting series continues on Friday this week: <https://wiki.onap.org/pages/viewpage.action?pagelId=103422272>
- Martin Skorupski Alex Stancu Adding a "Pull request" to change OSC versions (port#s) from Staging to Release versions (so they don't disappear in 30 days) <https://github.com/gmngueko/oran-deployment/pull/1> - Merged by @Martial
  - Alex Stancu Suggest only using release version in charts, & where staging & snapshots are used they are added to Overrides only
  - Github: <https://github.com/gmngueko/oran-deployment> - Ask @Martial for access if you want to contribute.
- @Martial: Are you using a custom version of ONAP components in OSC: (CCSDK, ONAP Policy, etc)
  - John Keeney In general we use exactly the ONAP versions from ONAP nexus - Except the Policy framework we needed to temporarily use a snapshot version with a bug fix pending Maintenance release in ONAP. (No Fork!)
- @Martial: Using DMaaP?
  - John Keeney Martin Skorupski Yes. DMaaP is necessary.

- Some proposal may be coming from OSC SMO project to avoid using DMaaP and/or a new VES Collector ... But we don't have any concrete information on this

## UML2Yang Tool support: (Andy Mayer )

- General interest in ONAP for UMLYang tool support.
  - Looking for volunteers to help with tooling for UML-Yang.
  - Will discuss at new ONAP Modelling SubCom call.
- Kamel IdirMartin Skorupski A document from ONF describing UML Yang mapping & tools (IISOMI):
  - <https://wiki.opennetworking.org/display/OIMT/IISOMI+Deliverables>
- Martin Skorupski Older proposal from 2019 in INF too:
  - <https://wiki.opennetworking.org/display/OIMT/Project+proposal+for+UML-To-YANG>

## Identity service in OSC OAM/SDNR

- Kamel Idir What is the identity service (Keycloak) used for ... is there a use case?:
  - Martin Skorupski No use case as yet. Just used for identity management for ODLUX UI login
- Byung-Woo Jun Can give a overview of ONAP Security Framework in a couple of weeks 😊
  - AAF will likely not continue in ONAP.

## Not Discussed - for next week : ONAP Requirements Subcommittee

- Re Email from Alla: <https://lists.onap.org/g/onap-requirements-sub/message/1985> Timo Perala @NK Shankar
  - Will follow up next week
