 - VES / OOM configuration for SDNC ongoing ... <https://gerrit.onap.org/r/c/oom/+/125150>

Q&A

ONAP Use cases etc [N.K. Shankaranarayanan](#)

- Want to make progress on A1 enhancements in ONAP Jakarta (Slicing / SON)
 - Will discuss on ONAP J usecases/requirements sub-committees next/coming weeks.
- ONAP RANSim vs OSC Simulators - Try bring together use cases across ONAP / OSC ?
 - ONAP RANSim based on Honeycomb, OSC O1 simulators based on Netopeer netconf servers (All OSC O1 simulators based on same platform)
 - Different simulators have different focus - some on use-case logic vs interface/connectors.
 - Will hopefully be easier to mix & match deployments / use cases / simulators across OSC and ONAP should be easier as SMO deployments become more modular & composable.
 - Note also Sleeping Cell Simulator from Samsung in ONAP Integration (Marcin Krasowski, Pawel Slowikowski, Mateusz Zawadzki)
