Goals

- Discuss the status of SMO project for E-release.
- Plans for the F-release
- Tacker presentation for O2 interface by NTT DOCOMO.

Discussion items

Time	Item	Who	Notes	
5 min	Agenda bashing	All		
15 min	SMO project status	Mahesh Jethanandani		
40 min	Tacker presentation	DOCOMO	The presentation can be found here.	

Notes

- Went over all the open issues for SMO. Most features are committed or in several stages of review.
- user-59b16 wanted to discuss plans for the F-release. Some of the items discussed above will be moved to F-release. The other big item is the discussion around O2 implementation, which was the next topic of discussion.
- DOCOMO presented their plans of contributing the Tacker project to the SMO project. Questions were asked about how the proposal would interact with plans by the infra team to make a similar contribution but targeted towards Kubernetes only deployments.

Action items

- ☐ Mahesh Jethanandani: Discuss next steps for the Tacker presentation and plans for the O2 interface. Will take up in the next meeting of SMO, likely in the new year.

- ☐ Masafumi Masuda to get the team to share slides of their presentation.
