## Goals

- Review items for F-release

## Recording

The recording for the meeting can be found [here](#).

## Notes

Following items will be implemented as part of the F-release

- O1/VES interface
  - Support for stdDefined message format. O1/VES currently supports the schema format for VES events that is supported by ONAP.
  - Support of more PM counters for Network Slicing. O-RAN has defined a whole new set of PM counters for Network Slicing for both O-CU and O-DU. Those will be supported.
- OpenStack Tacker
  - Initial implementation and integration with SMO
- CNF deployment
  - Presentation by [Bin Yang](#) to be had in one of the SMO meetings
