

Release F: Technical spikes

Here we collect info about technical spikes.

- [Authentication Support Service](#)
- [Move products from nonrtrc repo to separate repos](#)
- [PM distribution to rApps](#)
- [R1 PoC - R1 Interface exposure and JWT Authorization](#)
- [Release F: Coordinated Service Exposure](#)
- [Release F: Supplemental A1 Simulator Behavior](#)

In some cases these studies continue work started in earlier releases:

- [Release E: Technical spikes](#)
- [Release D: Discussions](#)
