

OSC Community Lab in Silicon Valley, California (CMTI)

Purpose

Focused on Near-RT RIC and xApp Testing

Status, **Under construction**

- Already supporting the testing for RIC platform and xApp.
- Phased plan:
 1. Deploy various simulators to meet the end-to-end testing requirements for various OSC modules;
 2. Support integration and interoperability testing to the OSC Community; and
 3. Serve as full capacity OSC Community Lab.

Access

Public access and resource sharing is not yet available.
