Notes

- H-release kickoff. Quiet week. Dev Phase 1 starts coming Monday.
- O2 team is looking at their own Jenkins file for any issues with the Jenkins run. The team has already submitted the work they want to do in H-release.
- [Yogendra Pal](#) will coordinate with [bhanu chandra](#) on planning for the H-release. He wanted to know if there were any particular issues folks were facing with O1 interface. While folks have used O1 interface for file-ready-notification, nobody has as such complained about any issue with the O1 interface.
- Need to evaluate if file-ready-notification comes over O1 or over O1/VES. O1/VES currently does not support this notification.
- [santanu de](#) has submitted the list of items to work on H-release. They will be discussed in O1/VES team meeting.
